

### Math 1b Schedule for January:

There will be four coursewide review sessions, all given by teachers in the course. The reviews are scheduled as follows:

Day	Date	time	Place	Topics
Wed	Jan. 12	at 7-9 pm	SC D	Series (Erick Matsen)
Friday	Jan 14	at 2-4 pm	SC E	Differential Equations (Robin Gottlieb)
Sunday	January 16	at 7-9 pm	SC E	Integration (Weiyang Qiu)
Monday	January 17	at 7-9 pm	SC E	Differential Equations (Albert Chau)

All of the office hours posted below are open to all students in the course. If they become large they'll be converted to group office hours and extra help and will be held in the 4th Floor Common Room outside SC 435. There are four office hours that are already listed as taking place in the 4th Floor Common Room, and if that room is too cramped they can be moved to SC 309a - which is also reserved for those four times.
