

# Linear Algebra and Differential Equations

## Math 21b

Harvard University

Fall 2003

Oliver Knill

These are some class notes distributed in the linear algebra course "Linear Algebra and Differential equations" taught in the Fall 2003. The course used the text book "Linear Algebra with Applications" by Otto Bretscher.

Some of the pages were intended as complements to the text and lectures in the years 2001-2003.
