

Math Xb—Spring 2004

Graphs of Exponential and Logarithmic Functions

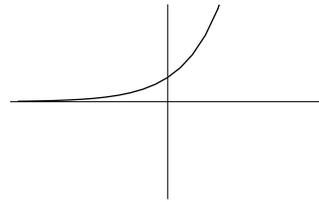

1. Choose the graph that best fits the function

$$f(x) = -\ln(x + 1).$$

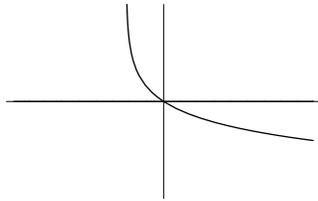

(a)

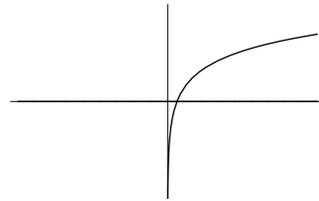

(c)

(b)

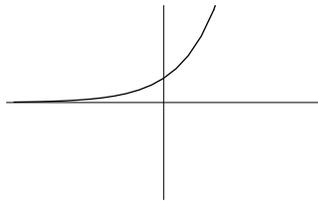

(d)

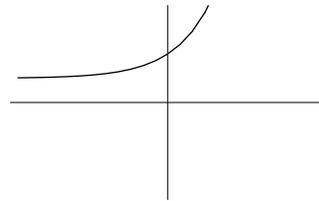

2. Choose the graph that best fits the function

$$f(x) = e^x + 1.$$

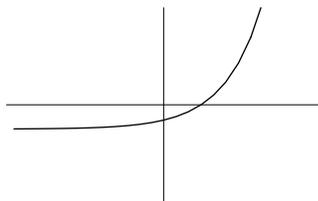

(a)

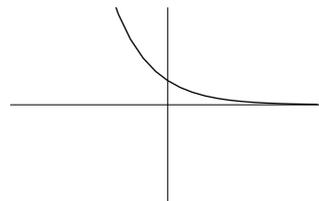

(c)

(b)

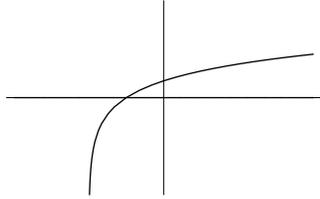

(d)

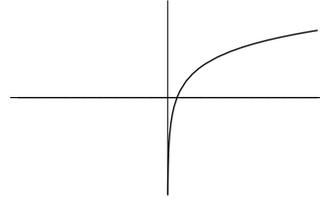

3. Choose the graph that best fits the function

$$f(x) = \ln 4x.$$

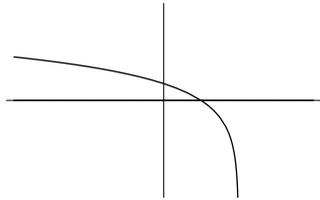

(a)

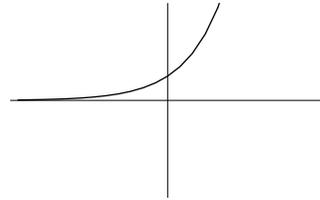

(c)

(b)

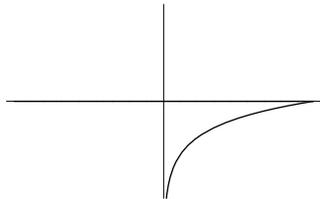

(d)

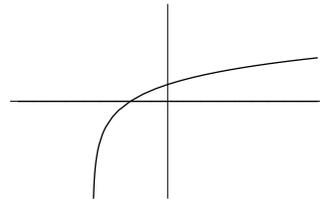

4. Choose the graph that best fits the function

$$f(x) = \ln \left(\frac{x}{4} \right).$$

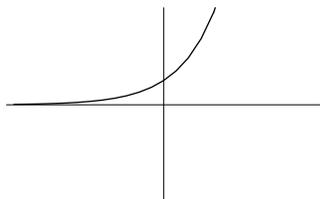

(a)

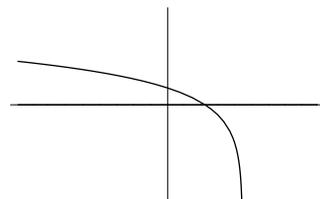

(c)

(b)

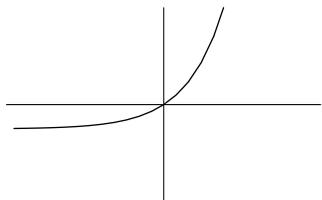

(d)

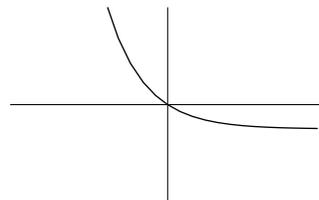

5. Choose the graph that best fits the function

$$f(x) = e^{-x} - 1.$$

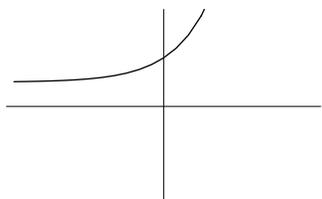

(a)

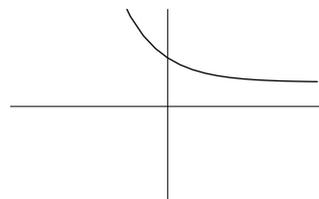

(c)

(b)

(d)

Answers

1. b

2. c

3. c

4. a

5. c
