Improper Integrals

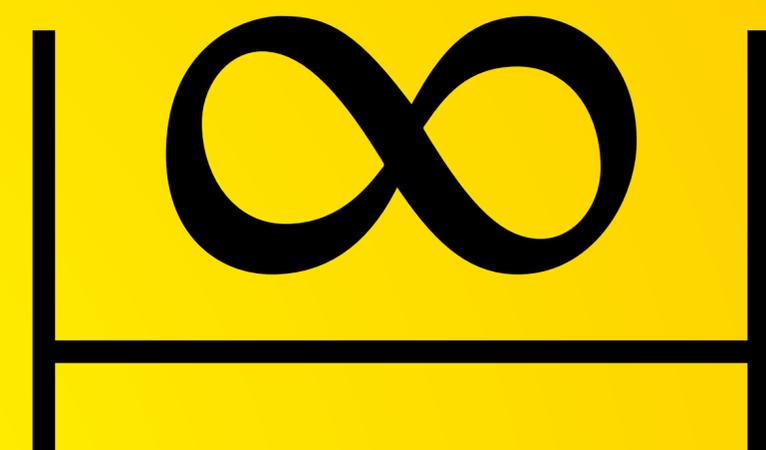

Improper Integrals

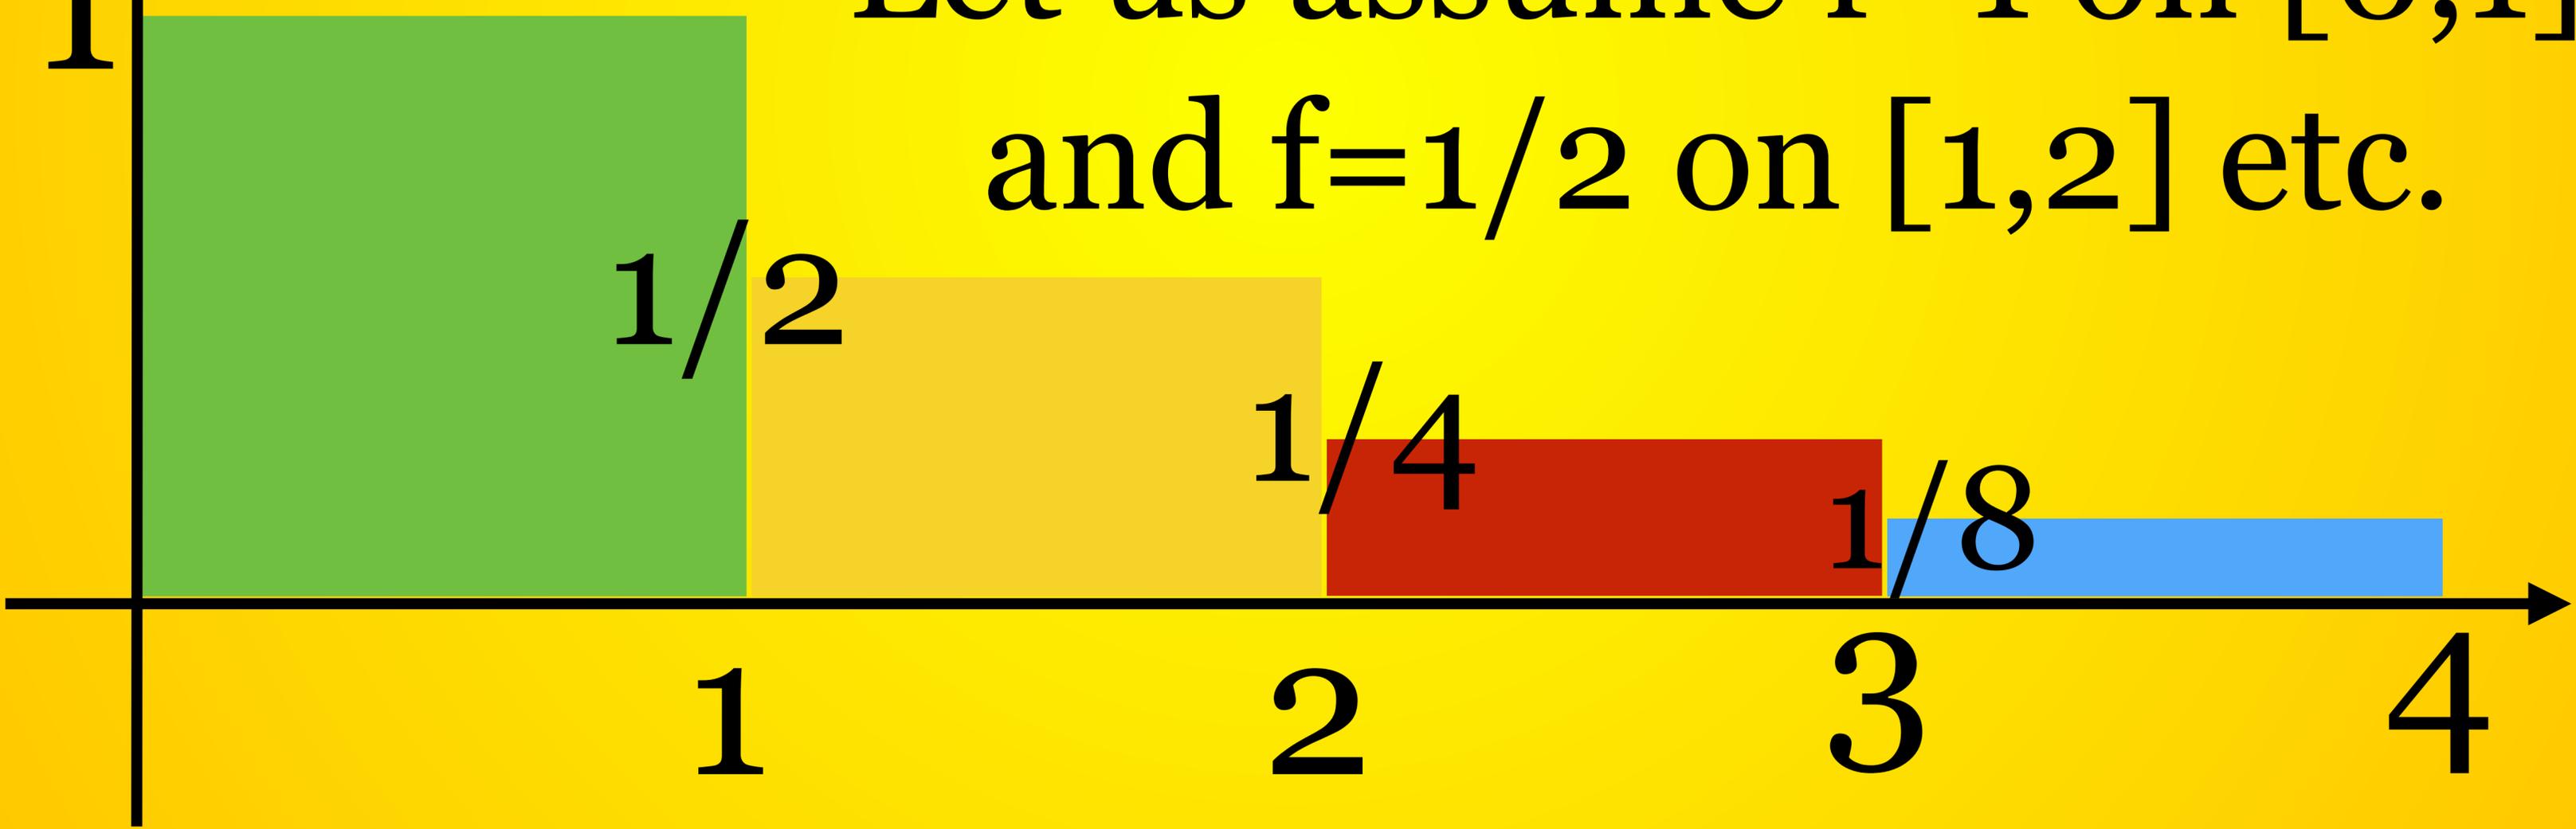

$$\int_a^{\infty} f(x) dx$$

$$\int_{-1}^1 \frac{1}{\sqrt{|x|}} dx$$

Taming infinity

Let us assume $f=1$ on $[0,1]$
and $f=1/2$ on $[1,2]$ etc.

Improper integral

Region is infinite

$$\int_a^{\infty} \sin(x) dx$$

Example

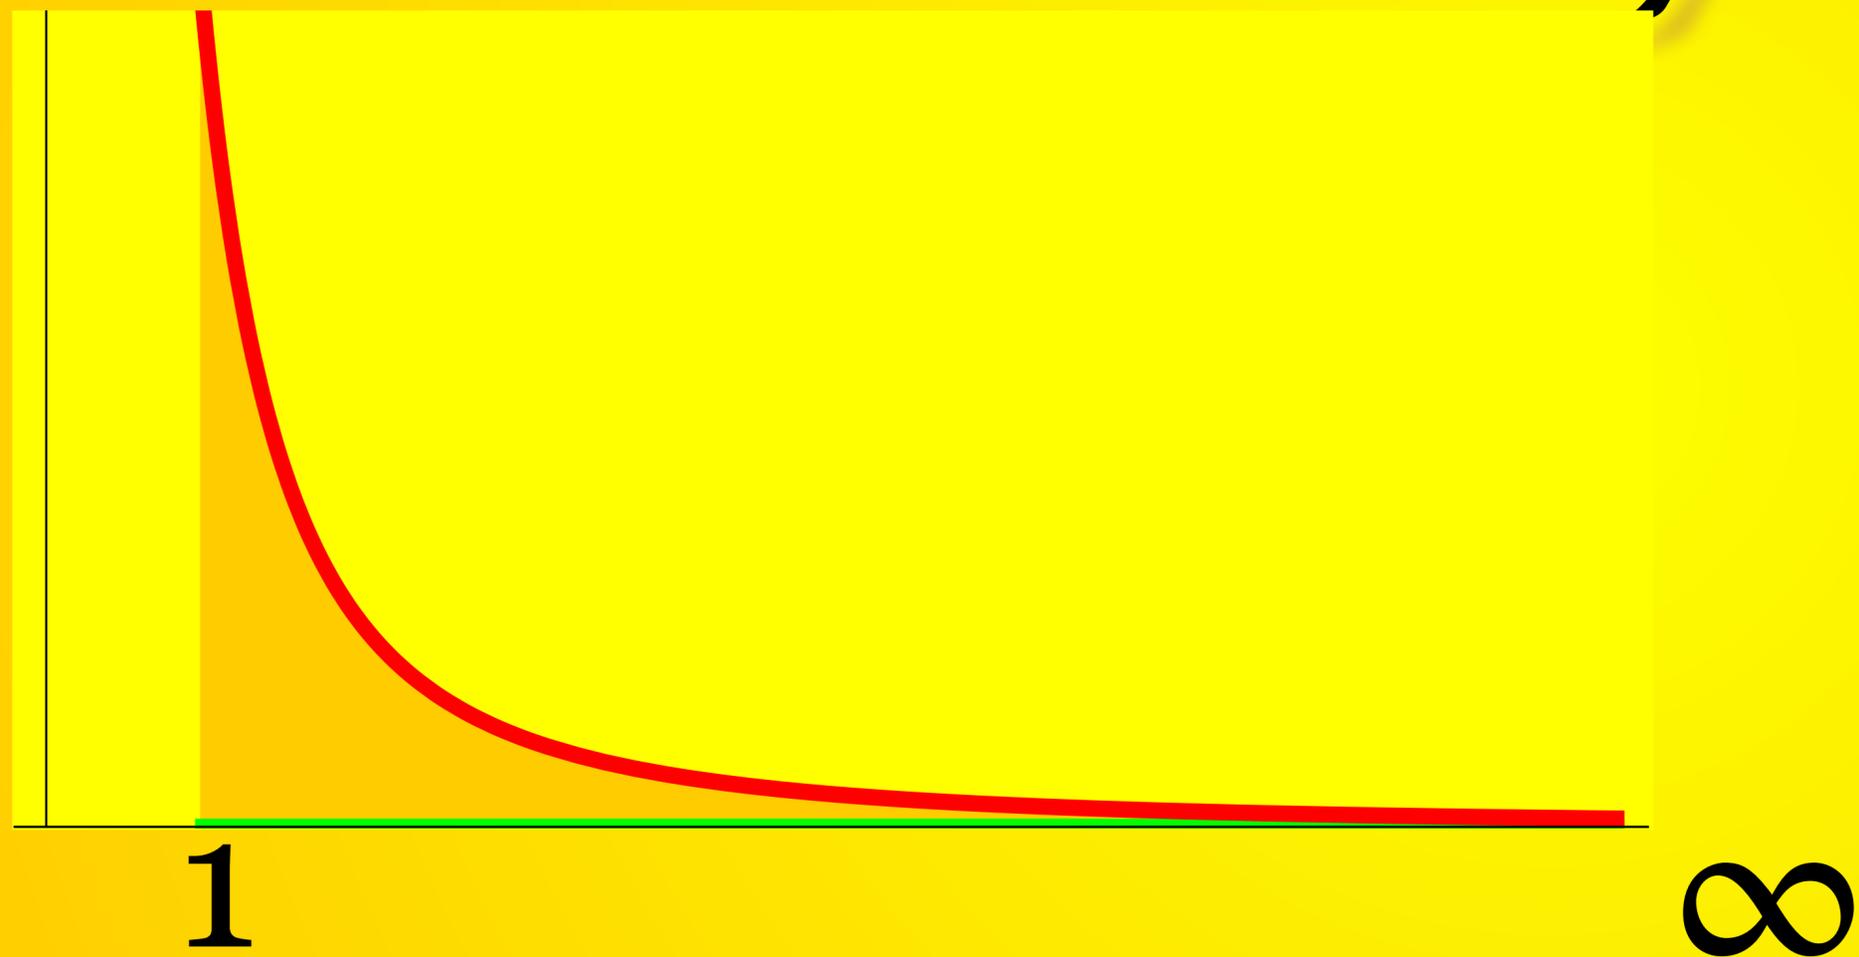

Why?

In Stats, many distributions are defined on unbounded domains or are unbounded

$$\frac{e^{-x^2/2}}{\sqrt{2\pi}}$$

$$\frac{1}{\sqrt{1-x^2}} \frac{1}{\pi}$$

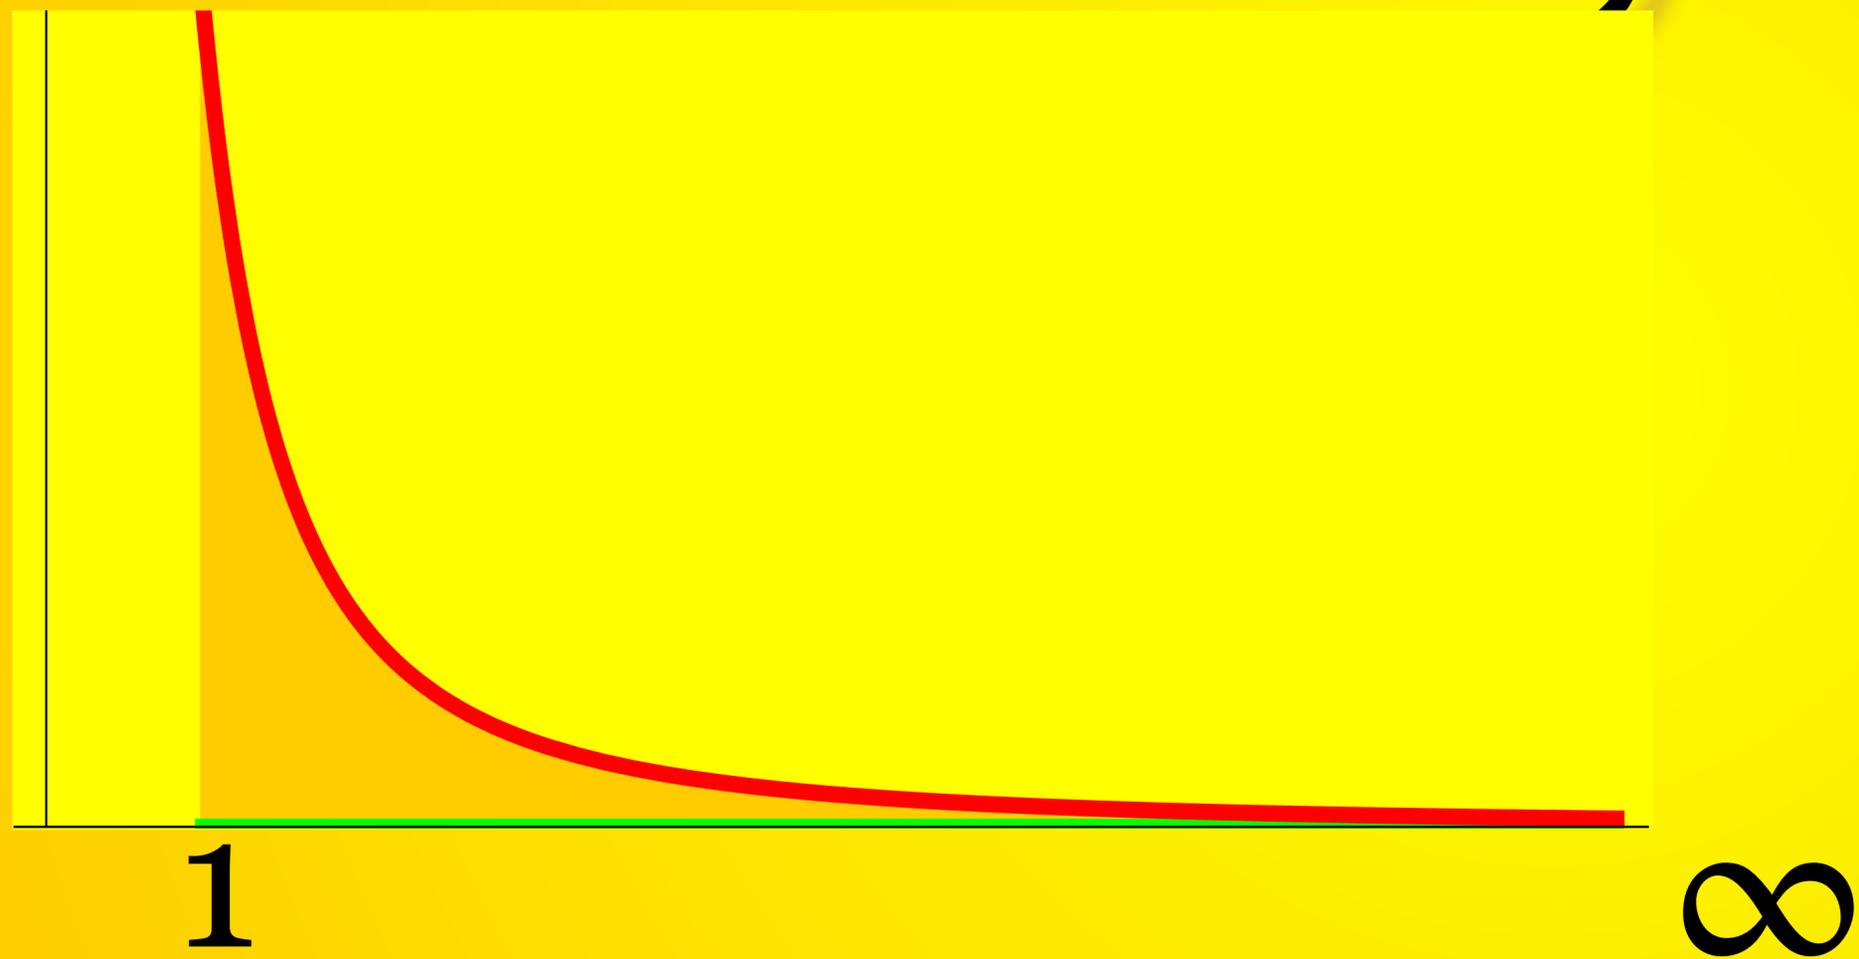

Example 1

$$\int_1^{\infty} \frac{1}{x^3} dx$$

Region is unbounded

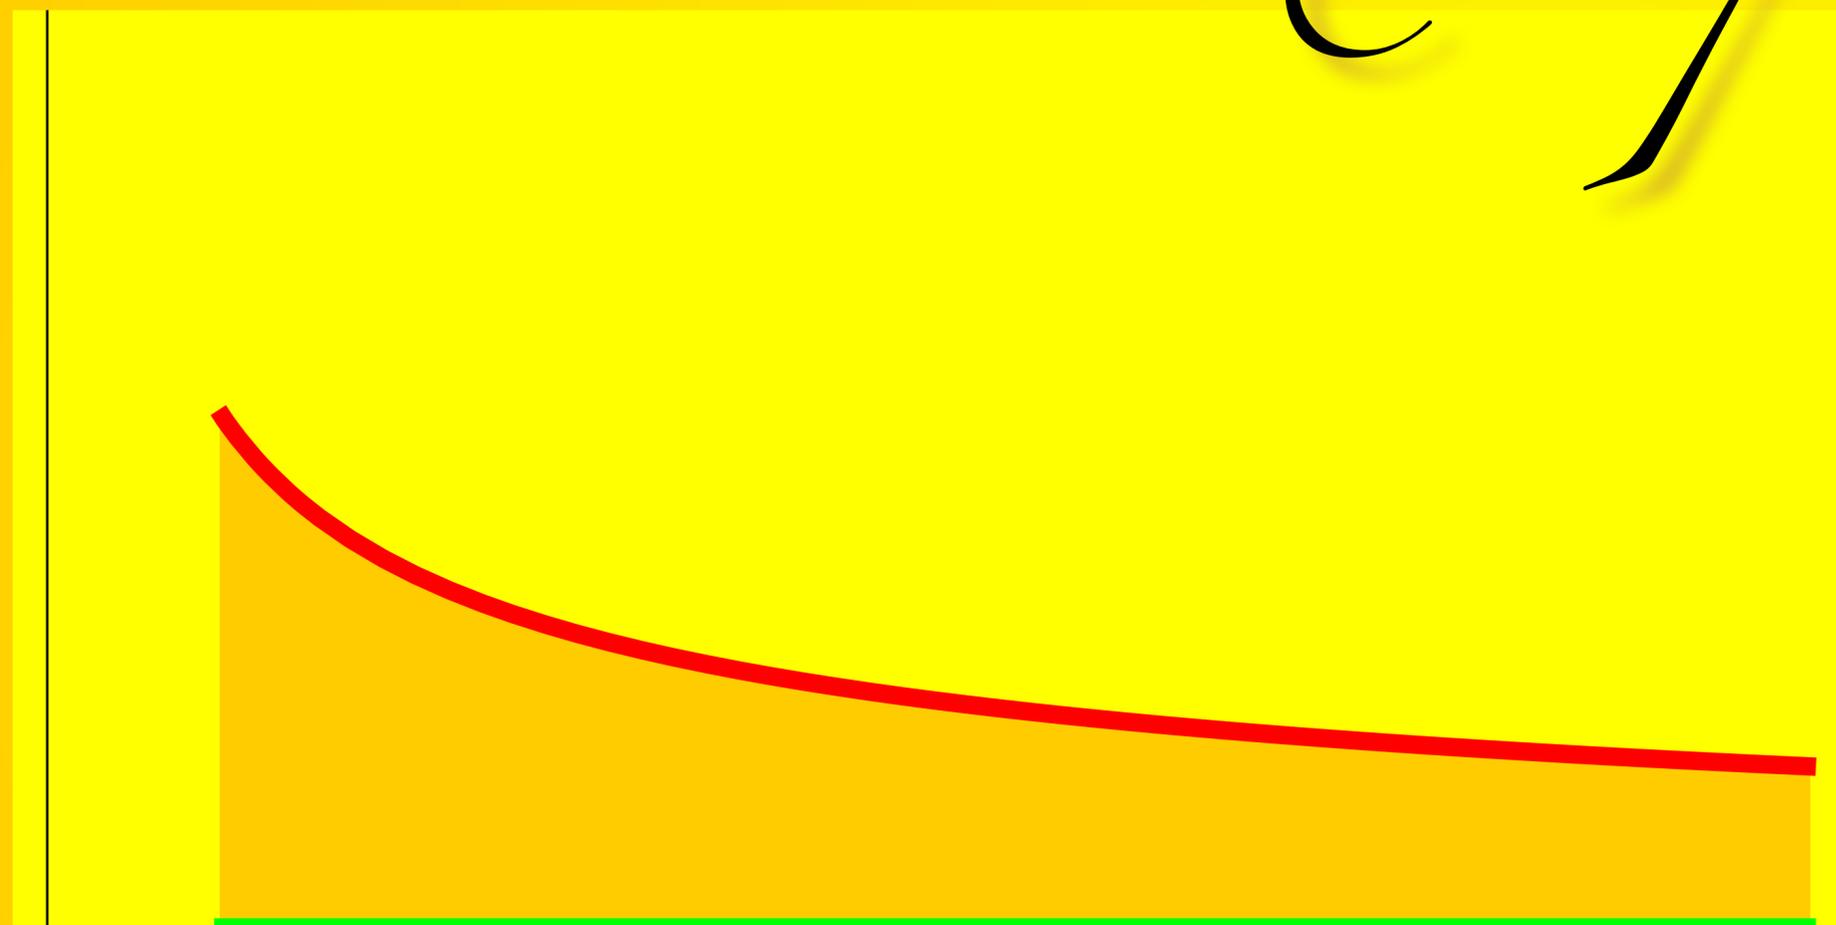

Example 2

$$\int_1^{\infty} \frac{1}{e^x} dx$$

Does this integral converge?

Example 3

$$\int_1^{\infty} \frac{1}{x^{1/3}} dx$$

1

∞

Does this integral converge?

b

The Trumpet

$$r = \frac{1}{x}$$

1

Surface

Area \geq

$$\int_1^b \frac{2\pi}{x} dx$$

Volume:

$$\int_1^b \frac{\pi}{x^2} dx$$

b

The Trumpet

Punch line!

1

Quiz

$$\int_1^{\infty} \frac{1}{x^2} dx$$

$$\int_1^{\infty} \frac{\sin^2(x)}{x^3} dx$$

*converge
or
diverge?*

$$\int_1^{\infty} \frac{1}{\sqrt{x}} dx$$

$$\int_1^{\infty} \frac{\sin^2(x)}{x^{1/4}} dx$$

$$\int_1^{\infty} \frac{1}{x} dx$$

$$\int_1^{\infty} \frac{\sin^2(x)}{x+1} dx$$

The End
