

INTRODUCTION TO CALCULUS

MATH 1A

UNIT 34: WORKSHEET

Here are extra credit problems. Each valid solution is worth one additional HW set.

How to lie with statistics!

1: Summarize 3 major mechanisms for manipulating with data from the book “How to Lie with Statistics”. Summarizing on one page is enough.

Data hunting!

2: Can you locate on the CDC website data about COVID 19? Here is a hunting problem I could not solve: find the mortality data due to Covid 19 in the US from January to now (daily). If you do not find it on the CDC website, can you find it somewhere else?
