

Lecture 13: Worksheet

Hopital's rule

1

What does l'Hopital's rule say about

$$\lim_{x \rightarrow 0} \frac{\exp(2x) - 1}{x} ?$$

2

Apply l'Hopital's rule to get the limit of

$$f(x) = \frac{\sin(200x)}{\sin(300x)}$$

for $x \rightarrow 0$.
